Technical Data Sheet

Dexron III ATF

Dexron III ATF

Gear & Transmission Oils

Description

Revolution Dexron III is a multi purpose automatic transmission fluid for commercial and passenger car gearboxes meeting a wide range of performance levels. This product is manufactured from premium synthetic base stocks and high quality solvent refined base oils. The specially selected additives and friction modifiers produce a durable transmission fluid, with a prolonged product life under the most severe conditions.

This product is dyed red to help prevent mis-application in engines.

Application

Revolution Dexron III is recommended for use in automatic transmissions of passenger cars, trucks and buses where Dexron IID, Dexron III and Ford Mercon fluids are specified.

Performance Level

- GENERAL MOTORS DEXRON IIIH,IIIG
- GENERAL MOTORS DEXRON IID
- FORD MERCON
- ALLISON C-4, TES-389
- MERCEDES BENZ 236.1, 236.9, 236.7, 236.6, 236.5, 236.10
- MAN 339F, 339 V1&Z1, 339 V2 & Z2
- ZF TE-ML 02F, 03D, 04D, 09, 11A, 11B, 14A, 14B, 16L, 17C
- VOITH DIWA & MIDIMAT (G607) 55.6335, 55.6336
- VOLVO 97341, 97340
- CATERPILLAR TO-2

Benefits

- Constant frictional performance
- Excellent oxidation stability
- High temperature operation stability

- Outstanding wear protection and component life
- Low temperature fluidity
- Can be used as a power steering fluid
- Compatibility with all elastomers and other sealing materials

Typical Inspection Data

	Units	Inspection Data
Density 156 °C	Kg/m ³	0.882
Kinematic Viscosity 100°C	mm ² /s	8.32
Flash Point °C		205
Appearance		Red
